We were the first reprographics service in Southern New Jersey to offer all-digital production of black and white and color copies, large format color ink jet prints and high resolution color scanning. Now we're the very first to offer the Synergix Print System from Xerox.

It's faster than any other copier in its class. This means more efficient production of large prints than ever before in history.

- SUPERIOR SCANNING ABILITY
- SUPERIOR PRINT QUALITY
- CONSISTENT SOLID BLACK FILLS
- CRISP FINE LINES
